By signing below, I am enrolling in Deciphera AccessPoint for QINLOCK® (ripretinib) patient support program (the "Program"). I authorize Deciphera Pharmaceuticals and its affiliates, business partners, vendors, and other agents (collectively, "business partners" and together with Deciphera Pharmaceuticals, "Deciphera") to provide me with services for which I am eligible under the Program. Such services may include medication and adherence communications and support, medication dispensing support, insurance coverage and financial assistance support, disease and medication education, and other support services offered now or in the future. As part of the Program offerings, I agree to my enrollment in the copay assistance program if I am eligible. If I am applying for patient assistance (no-cost medication) I authorize the Program to use my personal information to obtain a report on my individual credit history from consumer reporting agencies and use that report and other information collected from public and other sources to verify the information on this form and estimate my income to decide if I am eligible for free medication. Upon request, the Program will provide me the name and address of the consumer reporting agency that provides the consumer report.

I understand that free product programs (Rapid Start, Bridge, or Patient Assistance Program) are subject to eligibility criteria and that completing this application does not ensure that I will qualify for these programs. I certify that all the information provided in this application, including household income, is complete and accurate. I understand that program assistance will terminate if the program becomes aware of any fraud. If I receive free product, I will not seek reimbursement for it from any insurer, health plan, or government program.
